Their AAA components may have a total of 420 motor vehicles. have been 50X1-HUM A botal of 306 motor vehicles actually observed. When taking into consideration that the units were retated to Apetlon for periods of firing practice lasting lh to 18 days, the total of vehicles belonging to AAA units, 500 is not less than 655. This figure is exclusive assigned to the AAA regiment in Kagrans of the possibly belonging to air force units in Hungary, and have since only individual vehicles been reported. The figure 655 exceeds by 235 the tentative total of 420 motor vehicles believed to belong to AAA units in Austria-Hungary, Since the motor vehicle equipment of an AAA division is estimated at about 250 reported for the first time vehicles, and since most
